

Governor of Sint Maarten

## ***Governor's Youth Award For Excellence In Environmental Protection***

This certifies that **Sara Bharwani** born April 1, 2005 was awarded the 2020 Governor's Youth Award for Environmental Excellence by the undersigned on December 8, 2020.

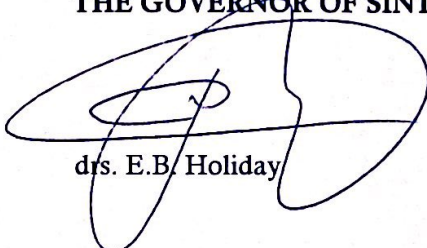

The Governor's Youth Award For Excellence (*The Award*) was founded on the idea that excellence drives durable progress. *The Award* is aimed at encouraging young persons to cultivate a mindset of excellence as a basis for their future positive contributions to society. *The Award* therefore recognizes youths ages 13 through 19 who have excelled in specific fields in our community.

*The Award* was designed and made locally. It consists of the image of Sint Maarten on an axis within a semi globe anchored on a stand. Created based on the idea that excellence drives durable progress, *The Award* depicts Sint Maarten firmly anchored via its "*semper pro grediens*" axis within our global community. It is made of black marble and cast acrylic. The black marble stand symbolizes the excellence of our youth as a durable foundation for the building of Sint Maarten's future. The transparent cast acrylic shape of Sint Maarten represents the clarity of vision which excellence offers for our island's progress. These design features have been chosen to inspire our youth to strive for excellence in pursuit of Sint Maarten's continued progress within our global community.

**Sara Bharwani** scored the highest from several nominated candidates and was selected as *the award* recipient. This after an evaluation of all nominated candidates by a panel of seven judges on the Governor's Youth Award For Excellence Evaluation Committee and their recommendation to the undersigned.

*The Award* shown in the above photo which is presented with this letter is in recognition of **Sara Bharwani's** commitment, peer inspiring, and consistent outstanding engagement in environmental protection activities. Congratulations with the receipt of the 2020 *Governor's Youth Award For Excellence in Environmental Protection*.

THE GOVERNOR OF SINT MAARTEN
